EDUCATION AND CERTIFICATION

California State University, Bakersfield

Bakersfield, CA

Bachelor of Science, Business Administration – Accounting Concentration

01/2023 – 05/2027 (Expected)

- GPA: 3.80 / 4.00 • Dean's List for seven consecutive semesters, Spring 2023 – Spring 2026 • CalCPA Scholarship recipient, 2026.
- **Accounting & Analytics Coursework** (grade of A or A– in every course listed): Intermediate Accounting I & II, Advanced Accounting, Fundamentals of Taxation – Individuals, Financial Reporting & Accounting, Managerial Accounting, Business Law, Data Analysis & Decision Making.
- **In Progress, Fall 2026:** Accounting Information Systems, Business Ethics, Human Resource Management, Business and Society – systems, internal control, and professional ethics coursework that maps directly to audit and advisory fieldwork.
- **Certification:** IRS-Certified Advanced Tax Preparer, Volunteer Income Tax Assistance (VITA) Program, 2025.
- **CPA Track:** Planning to sit for the CPA exam after graduation and to pursue California licensure through the accounting-concentration pathway.

SKILLS & QUALIFICATIONS

- **Accounting & Fiscal Operations:** Journal entries, inter-fund transfers, direct pays, ProCard and general account reconciliations, Procure-to-Pay (P2P) reporting, accounts receivable reconciliation, and claim denial resolution.
- **Accounting Systems:** EPIC Electronic Health Record – used daily for nine months to post payments, work claim edits, and research denials; ServiceNow (SNOW) ticketing for fiscal service requests.
- **Microsoft Excel:** PivotTables, VLOOKUP/HLOOKUP, Index Match, IFs logic, conditional formatting, and multi-tab reconciliation workbooks.
- **Microsoft Office & Collaboration:** Word, PowerPoint, Outlook, Teams, and Zoom – used to prepare approval documentation, department reporting, and event materials.
- **Tax:** IRS Advanced certification; individual federal and California returns prepared and electronically filed using TaxSlayer, working from W-2 and 1099-series source documents to Forms 1040 and 1040-SR.
- **Research & Analysis:** Survey instrument design, peer-reviewed literature review, primary-source verification, Zotero citation management, and SPSS / R / Excel Analysis ToolPak.
- **Languages:** Bilingual in English and Vietnamese – delivered live Vietnamese interpretation for taxpayers during IRS VITA appointments, translating tax terminology in real time.

PROFESSIONAL & RELEVANT EXPERIENCE

California State University, Bakersfield – Information Technology Services (ITS)

Bakersfield, CA

Accounting Student Assistant, Business Office

08/2026 – Present

- Prepare, process, and track fiscal transactions for the ITS business office – journal entries, billing request forms (BRFs), inter-fund transfers (IFTs), and direct pays – and maintain the supporting documentation that substantiates each entry.
- Assist with ProCard and general account reconciliations, verifying that every recorded charge agrees to its receipt and complies with University policy before it is approved.
- Prepare and distribute journal entry approval emails and track each item through to posting, so nothing sits unapproved at period close.
- Monitor weekly Procure-to-Pay (P2P) reports and reimbursement requests.
- Respond to Business Office communications through the shared email inbox and ServiceNow (SNOW) tickets, resolving or routing fiscal questions from campus departments.
- Maintain organized digital and physical filing systems for fiscal, contractual, and administrative records, keeping the supporting trail intact for each transaction.

Clinica Sierra Vista – Billing Office Department

Bakersfield, CA

Billing Intern, Follow-Up and Payment-Posting Rotations

06/2025 – 03/2026

- Worked 40–50 outstanding claims per four-hour shift (about 10–12 an hour) across a 9.5-month internship – two full rotations, and the whole revenue cycle rather than one summer slice of it.
- Submitted claims to Medi-Cal, Medicare, and commercial payers, then checked EPIC for system-flagged errors and corrected front-end problems before the claim aged.

- Reconciled the accounts receivable ledger by identifying outstanding claims across all payers and following up on each one until it was paid, adjusted, or written off.
- Resolved claim denials by researching the rejection reason, correcting the error at its source with the billing trainers, and filing corrections and appeals so the same denial did not recur.
- Posted insurance and patient payments in EPIC, matching each remittance to the correct payer and invoice so the ledger reflected what had actually been collected rather than what had been billed.
- Handled provider, patient, and payer phone inquiries, explaining billing statements and Explanations of Benefits (EOBs) to people who had never read one – the same skill an accountant needs to explain a variance to someone outside finance.

Volunteer Income Tax Assistance (VITA) – IRS Program

Bakersfield, CA

Advanced Tax Preparer, Greeter and Interpreter

02/2025 – 03/2025

- Earned IRS Advanced certification by completing the tax law, ethics, and intake training, then prepared and electronically filed individual federal and California returns at no cost to the taxpayer.
- Screened taxpayers at intake to confirm eligibility and that every required document (W-2s, 1099s, photo ID, prior-year return) was present before preparation began, which kept returns from stalling mid-appointment.
- Worked within the IRS quality-review protocol, routing every completed return to a certified quality reviewer before transmission and correcting the items they flagged.
- Interpreted between Vietnamese and English for taxpayers with limited English, explaining filing status, credits, and refund timing so each client could answer for their own return.
- Greeted and sequenced about 50 arriving taxpayers per shift, keeping the appointment schedule on time during the busiest weeks of filing season.

California State University, Bakersfield – Student Union

Bakersfield, CA

Student Information Specialist and Facilities Assistant

10/2023 – 08/2026

- Held the same front-line service role for nearly three years, supporting students, staff, and external clients in the busiest building on campus.
- Coordinated room and event reservations each semester for university conferences and campus events, resolving double-bookings, setup conflicts, and last-minute changes before they reached the client.
- Maintained the campus event calendar as the single accurate schedule for students and departments – wrong event information is the fastest way for a room to sit empty or a setup crew to arrive in the wrong place.
- Directed students to the specific office, form, or deadline they needed instead of a general answer, and built working contacts in Financial Aid, the Registrar, and Student Involvement so questions went to a named person rather than a queue.
- Handed open issues to the next shift in writing so nothing was dropped between staff changes, and covered the information desk and facility setups alongside a rotating student team.

NHK Printing and Packaging Joint Stock Company

Ho Chi Minh City, Vietnam

Marketing Intern

06/2023 – 07/2023

- Digitized three years of paper inventory records into Excel over a two-week project, replacing physical binders with a file the team could sort, filter, and check against stock on hand.
- Built out the company Facebook fan page as a direct channel to business customers, developing both the page itself and the content published on it.
- Handled day-to-day community engagement on that page, responding to customer comments and enquiries so the channel stayed a conversation rather than a noticeboard.
- Provided administrative support to the marketing team, organizing project files and campaign materials into a shared structure so current assets could be found without asking.

RESEARCH & ANALYTICAL EXPERIENCE

People Analytics with AI Research Program, CSUB

Bakersfield, CA

Student Researcher, faculty-mentored

06/2026 – Present

- Designed an original cross-sectional survey study testing how office decor personalization and task gamification affect employee work performance, building a six-hypothesis serial mediation model (workplace resources → experienced fun → work engagement → performance) grounded in Job Demands–Resources theory.
- Audited every measurement instrument cited in the source literature and found that two scales presented as “validated” were invented names attached to real published papers; replaced them with genuine published instruments (IW PQ, UWES-9, GAMEX, Tews) and verified each item against the original article – the professional skepticism audit work runs on.

- Built a verified library of eight peer-reviewed sources, checking every citation against the primary document, and managed references in Zotero so the reference trail is reproducible by any reviewer.
- Defined the target population and screening rules for the sample, so the data collected actually answers the research question instead of mixing in respondents the model does not apply to.
- Preparing a developmental research paper for blind-review submission to the Western Academy of Management 2027 Annual Conference (3,000-word limit, October 2026 deadline).
- Used AI research tools under the program's required disclosure protocol, documenting every prompt and independently verifying each factual output before relying on it.

LEADERSHIP EXPERIENCE

Student Research Scholar Club, CSUB

Bakersfield, CA

Treasurer

07/2026 – Present

- Track the club's operating budget and process member reimbursement requests, verifying each against its receipt, approval, and budget line before submitting it for payment.
- Built the club's transaction tracker in Excel – one workbook covering the ledger, reimbursement requests, and budget lines, with a running balance and an automatic flag on any expense recorded without a receipt – replacing record-keeping that had been kept ad hoc.
- Maintain the club's transaction records and supporting documentation so every disbursement can be traced back to its approval and its receipt.
- Report the current balance to the officer board so spending decisions are made against a current figure rather than an estimate.

Associated Students, Incorporated (ASI) – CSUB Student Government

Bakersfield, CA

Director, School of Business and Public Administration

05/2025 – 05/2026

- Elected to the ASI board as Director for the School of Business and Public Administration (BPA), representing BPA students directly as their single point of contact for academic and administrative concerns and voting on decisions affecting all 10,419 CSUB students.
- Reviewed funding applications and allocated a \$30,000 budget as a voting member of the ASI Finance Committee, evaluating each request against its line-item budget, expected attendance, and ASI funding criteria before releasing money, funding 55 student organizations over the year.
- Investigated a recurring instructional complaint raised by students in the school, established the pattern across multiple independent reports rather than acting on a single account, and brought it to the Dean with a recommended course of action.
- Partnered with the presidents of the school's business clubs to organize an annual event connecting BPA students with faculty and local employers.
- Attended weekly ASI board meetings and carried BPA student concerns onto the formal agenda, so issues were recorded and tracked rather than handled informally.

PROFESSIONAL AFFILIATIONS & RECOGNITIONS

CalCPA Scholarship, \$2,000 Recipient

02/2026

Merit award from CalCPA, the California Society of Certified Public Accountants, given to accounting students on academic record and professional promise.

CalCPA (California Society of Certified Public Accountants), Student Member

09/2024 – Present

The statewide professional association for California CPAs; provides technical education, CPA exam resources, and public accounting firm networking.

University Accounting Association, CSUB – Member

01/2024 – Present

Student chapter connecting accounting majors with regional public accounting firms, CPA speakers, and on-campus recruiting events.
